PROFESSIONAL SUMMARY

Data-driven Digital Media Senior Associate with 7+ years of experience managing and scaling paid acquisition across global portfolios. Proven track record in executing high-budget campaigns that reduced CPA by 10% and boosted engagement by 15%. Skilled in strategic bidding, creative optimization & translating GA4, SQL and looker studio data into clear growth roadmaps.

WORK EXPERIENCE

Digital Media Senior Associate - Google Operations Center, Gurgaon	(12/2022-Present)
- Developed high-impact ad creatives for Performance Max (PMax) and Search campaigns through data-backed research, improving impressions, click-through rates, and overall campaign effectiveness. - Accelerated the adoption and migration of advanced Google solutions (Demand Gen, Smart Bidding), lifting client engagement by 15% and lowering acquisition costs by 10%. - Led investigative root-cause analysis on underperforming accounts, reducing incident resolution time by 40% and deploying best practices across cross-functional teams. - End-to-end execution of high-budget search campaigns, scaling ad reach & driving a 10% reduction in CPA through data-driven Keyword expansion & negative list curation. - Accelerated migration of 20+ client accounts to demand gen campaigns, optimizing, audience targeting, assets & automated bidding strategies to boost engagement rates by 15%. - Acted as a strategic advisor for struggling accounts, revamping keyword structures and bidding strategies to recover lost ROI and protect quarterly ad spend commitments. - Configured and deployed custom event tags, triggers and conversion tracking parameters using Google Tag Manager (GTM), eliminating tracking discrepancies & ensuring 100% data integrity across client landing pages.	
Senior Process Executive - Cognizant Technology Solutions, Gurgaon	(10/2021-12/2022)
- Worked in a Google-curated project on GTech Server, where I strategized, developed, and managed paid digital marketing ads with a focus on driving acquisition and conversions. - Audited landing pages, creative assets, and search intent to maximize conversion efficiency while ensuring adherence to advertising policies. - Partnered directly with business clients to build, launch, and optimize acquisition-focused Google Ads campaigns aligned with client commercial objectives. - Mentored and upskilled incoming team members on campaign mechanics, client management protocols, and performance benchmarks to drive organizational delivery targets.	
Process Executive - Cognizant Technology Solutions, Gurgaon	(07/2019-10/2021)
- Managed core ad operations, creating, editing, and updating ad components in accordance with standard operating procedures. - Assisted in improving campaign performance by tracking competitors and applying industry best practices. - Executed ads and ad assets within Google Ads, ensuring accuracy, relevance and policy compliance. - Assisted in routine optimization activities by updating assets based on instructions shared by senior associates or clients.
